HOW TO BUY AND SELL NFTS

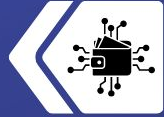

HOW TO BUY AN NFT

CHOOSE AN NFT MARKETPLACE THAT ALLOWS ITS USERS TO PURCHASE NFTS

CREATE AN ACCOUNT IN YOUR CHOSEN NFT MARKETPLACE

SIGN UP FOR A METAMASK WALLET AND TIE THAT TO YOUR ACCOUNT

PURCHASE \$ETH FROM A CRYPTO EXCHANGE AND SEND THAT TO FUND YOUR METAMASK WALLET

BROWSE THE MARKETPLACE AND FIND A NFT YOU WOULD LIKE TO BUY

PLACE A BID ON YOUR CHOSEN NFT AND PARTICIPATE IN THE AUCTION

DEPENDING ON WHETHER YOU WON THE AUCTION THE NFT WILL BE SENT TO YOUR WALLET

HOW TO CREATE AND SELL NFTS

CHOOSE AN NFT MARKETPLACE THAT ALLOWS ITS USERS TO SELL NFTS

CONNECT YOUR METAMASK WALLET AND FUND YOUR ACCOUNT

SELECT YOUR NFT AND UPLOAD IT TO THE MARKETPLACE

PAY THE MINTING FEE TO UPLOAD YOUR NFT (THE FEE VARIES FROM PLATFORM TO PLATFORM)

ONCE THE NFT IS MINTED, YOU CAN NOW PLACE IT ON THE MARKETPLACE FOR AUCTION

PROMOTE AND MARKET THE AUCTION ACROSS ALL SOCIAL MEDIA PLATFORMS TO GAIN PROSPECTIVE BUYERS

ONCE THE AUCTION IS OVER, THE HIGHEST BIDDER IS CHOSEN. THE NFT GETS SENT TO THEIR WALLET AND THE FUNDS ARE PAID TO YOURS AUTOMATICALLY

Issues with NFTs

- There are copyright issues where creators are using other people names, ideas, and images to resell for their own profit.
- Examples can include the many Michael Jordan NFTs being sold without his approval and without him receiving any royalties from sales.
- There is a need for governing bodies such as the U.S. government and others to provide clarity and guidelines in the NFT field.
- Currently there is a lawsuit against NBA Topshots (Dapper Labs Inc.) where they are being accused of selling securities illegally. A security is a financial instrument that holds value. It represents ownership in a publicly traded company in the form of stocks, options, and bonds.
- OpenSea and other NFT marketplaces are having issues tracking the royalty sales once NFTs are transferred from one marketplace to another.
